

95% to 100% Financing When Buying the Business Where You Work

If you have an opportunity to buy the business where you are employed, then you may be able to do so with a loan that covers 95% of the purchase price. And, in many instances our Business Strategists can even locate sources to also fund your 5% down payment. (See our page entitled How to Buy a Business with None of Your Own Money).

To see if you qualify for this program and/or what other comprehensive and aggressive financing program options are available to you, Call us at 813-977-7071 or email us with a time to call you, and we will do so at our expense.

One of our most recent clients went to the bank to borrow \$120,000 for her purchase of two retail stores. The bank took two months to tell her that they would lend her \$30,000. Our Strategists went to work and within two weeks of submitting a completed loan package, she had approval for funding of \$130,000!

To see if we can help you to live the American dream by buying a business and becoming self employed and self reliant, CALL NOW - 813-977-7071 or email us. Just share some of the basics of what you would like to do, and we will be happy to tell you how to do it and if we can help.
